PROFESSIONAL SUMMARY

As a dedicated web frontend developer with a strong foundation in computer science and proficiency in Java, I leverage my blend of design creativity and technical acumen to craft captivating and functional websites that exceed client expectations. My proactive approach to learning ensures I stay current with evolving trends and technologies, enabling me to deliver cutting-edge solutions. With a strong focus on responsive design, I create websites that offer seamless user experiences across devices. Effective communication and teamwork skills enable me to collaborate seamlessly within cross-functional teams and deliver exceptional outcomes.
